

## Prefabricated Buildings

### Prefabricated Buildings

ESS pre-fabricated buildings are designed and manufactured to provide years of maintenance free service. Our factory-assembled design allows your building to be shipped complete and ready for immediate use upon connection to your existing site services.

#### Quality

Standard ESS materials are: highly corrosion resistant, prepainted Galvalume steel siding; durable vinyl covered gypsum interior wall panel; commercial grade HM steel doors and thermally broken, extruded aluminum framed windows.

#### Specialty

ESS specializes in custom designs and will assist you in developing the best layout to suit your specific needs.

#### Design

Structural framework can be specified using either wood or non-combustible steel construction.

#### Optional

Various optional items are available such as: electrical packages; HVAC systems; roof overhangs; fixed or sliding windows; safety glass; tinted glass and washroom facilities to name a few.

#### Warranty

ESS prefabricated buildings include one full year manufacturers warranty against defects in workmanship and materials.
