

## Specialty Buildings

### ESS Specialty Buildings

ESS manufactures a wide range of high quality pre-fabricated specialty buildings.

#### Applications

A few samples of specialty buildings available are: control rooms; operator pulpits; electrical control buildings; equipment shelters; storage buildings; pump houses; below ground offices and shelters for the mining industry.

#### Design

We have a large custom / product development department dedicated to fulfilling your custom requirements.

#### Optional

Various optional items are available. Call or contact us today for any additional information or questions about these building products.
