

Wire Mesh Partitions

ESS Wire Mesh Partitions

ESS wire mesh partitions are the ideal cost efficient solution for dividing and securing warehouse space.

Design

Our modular ESS wire mesh partitions are available in standard panel dimensions or we can custom design for an exact fit; maximizing the use of your available floor space.

Applications

ESS wire mesh partitions are widely used for many personnel safety and product security requirements.

Installation

Our modular bolt together design allows for a quick and simple installation. ESS wire mesh partitions are shipped in kit form ready for installation by your maintenance department personnel or alternatively have our ESS installation team complete the work for you.

Optional

ESS also offers optional items such as: swing or sliding gates; service wickets; automatic gate closers; emergency exit devices; wire mesh; expanded metal or sheet metal panel finishes. Custom colour finishes are available upon request.
