

Prefabricated Buildings

Prefabricated Buildings

ESS prefabricated buildings are designed and manufactured to provide years of maintenance free service. Our factory-assembled design allows your building to be shipped complete and ready for immediate use upon connection to your existing site services.

Quality

Standard ESS materials are: highly corrosion resistant, prepainted Galvalume steel siding; durable vinyl covered gypsum interior wall panel; commercial grade HM steel doors and thermally broken, extruded aluminum framed windows.

Specialty

ESS specializes in custom designs and will assist you in developing the best layout to suit your specific needs.

Design

Structural framework can be specified using either wood or non-combustible steel construction.

Optional

Various optional items are available such as: electrical packages; HVAC systems; roof overhangs; fixed or sliding windows; safety glass; tinted glass and washroom facilities to name a few.

Warranty

ESS prefabricated buildings include one full year manufacturers warranty against defects in workmanship and materials.
